7.1.2 THE INSTITUTION HAS FACILITIES AND INITIATIVES FOR

5. DISABLED-FRIENDLY, BARRIER-FREE ENVIRONMENT.

With regard to the facilities provided to the differently abled people, we have the following facilities in our college.

1. Ramps :

We have implemented two ramps, one situated near the B.Com rooms and the other adjacent to the B.Sc classrooms within the college premises. These ramps serve as invaluable facilities for the convenience of our college staff, students, and others who may have different abilities. Although the number of differently-abled individuals in our community is relatively small, we remain committed to fostering inclusivity.

In a concerted effort to provide an accessible environment, we have taken additional measures to organize classes for differently-abled individuals on the ground floor. This initiative ensures that these individuals can easily navigate the college facilities and participate in their academic pursuits without encountering any physical barriers. This proactive approach reflects our dedication to creating an inclusive and supportive educational environment for all members of our college community.

2. Wheelchairs:

The college provides wheelchairs for those in need, facilitating easy movement across the campus. This not only supports students and staff but also caters to visitors who may

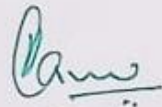

require assistance, reinforcing the institution's commitment to ensuring a dignified and convenient experience for all.

3. Signage Boards:

Clearly marked and strategically placed signage boards assist differently-abled individuals in navigating the campus. The signage is designed with accessibility in mind, ensuring that it is easily readable and visible, helping guide individuals to various facilities such as classrooms, washrooms, ramps, and other areas of interest.

4. Accessible Washrooms:

Specially designed washrooms are provided to cater to the needs of differently-abled individuals. These washrooms are equipped with features like grab bars, wide doorways, and adequate space to ensure comfort and independence while using the facilities.
