OBJECTIVE:

This webinar is useful for all Computer Science students and also knowing about Artificial intelligence is all the talk in the current day technological landscape. Some people love it. Some people hate it. Some people believe it is the one thing that will advance humankind even further than we already have achieved. And others think it will destroy us. One thing is for sure, though, AI is not nearly the technological feat that it will one day be. This webinar tenure is 3 hours duration, after completion of this webinar students will gain knowledge on

- Artificial intelligence solves problems
- Artificial intelligence shapes the future of every company
- Artificial intelligence completes multiple tasks
- Artificial intelligence creates synergy between humans and AI
- Artificial intelligence is good at problem-solving
- Artificial intelligence helps with planning
