GUEST LECTURE

On

Malaria

23-04-2022

Eve : World Malaria Day

Organizers: Department of Zoology

Guest

- 1. C.Murali Krishna,
Deputy DM & HO,
ITDA,Kannapuram**
- 2. P.S.S Prasad,
District Malaria Officer**

Venue: Seminar Hall

CSTS Government kalasala, Jangareddigudem

Time: 12 noon

Objective

Prevent Transmission: Educate individuals and communities about the transmission of malaria, including how it spreads through infected mosquitoes, so they can take measures to reduce exposure.

Promote Prevention: Raise awareness about preventive measures such as using bed nets, insect repellents, and antimalarial medications, as well as eliminating mosquito breeding sites.

Early Detection: Encourage early detection of malaria symptoms like fever, chills, and fatigue, so individuals seek prompt medical care and treatment.

Reduce Stigma: Address misconceptions and reduce the stigma associated with malaria to ensure that affected individuals seek treatment and support without fear of discrimination.

Community Engagement: Engage communities in the fight against malaria by involving them in prevention and control efforts, such as community-based distribution of bed nets and insecticide spraying.

Advocate for Resources: Raise awareness among policymakers and donors about the importance of funding and resources for malaria control programs and research.

Monitor and Evaluate: Establish mechanisms to monitor and evaluate the effectiveness of malaria awareness campaigns and adjust strategies as needed.

Ultimately, the goal of malaria awareness is to reduce the burden of malaria by preventing new infections, ensuring early treatment, and fostering a community-wide commitment to malaria control and elimination.
